HOW EMERGENCY HEALTH MEASURES SLOWED THE COVID-19 PANDEMIC

Cumulative confirmed cases in each locality analyzed by the study (area of circle is number of cases).
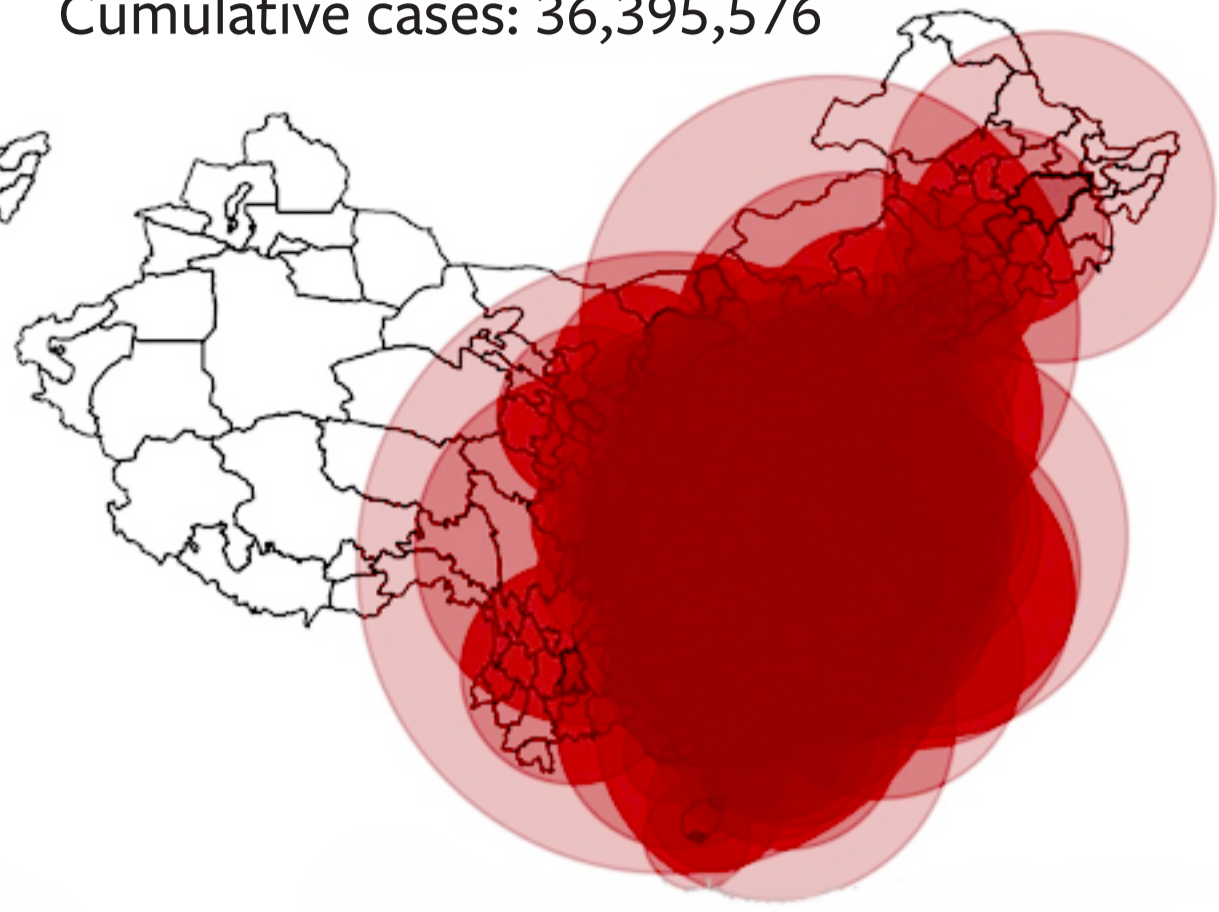

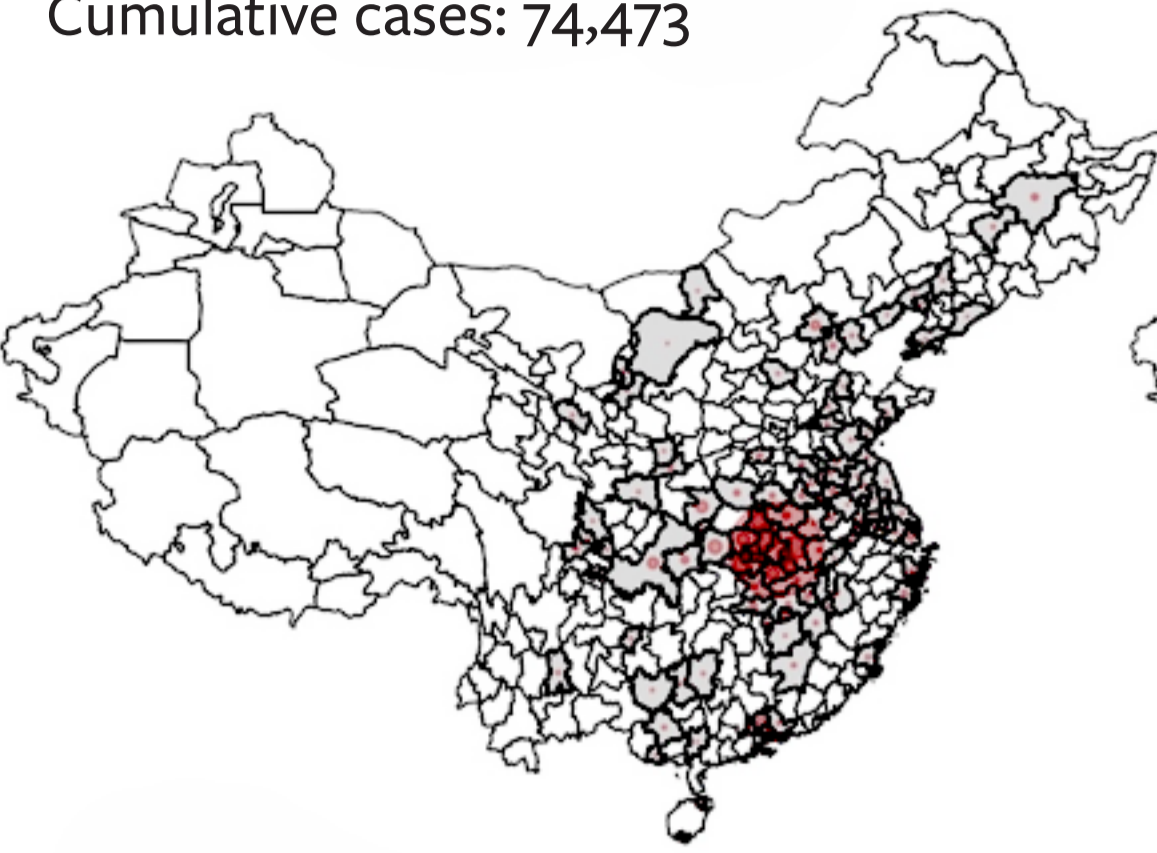

▶ **Left map:** *actual cases observed at the end of the study period.*

▶ **Right map:** *projected cases that would have occurred by the same date if no policy actions had been taken.*

China

Confirmed cases
Date: 03/05
Cumulative cases: 74,473

No policy scenario
Date: 03/05
Cumulative cases: 36,395,576

South Korea

Confirmed cases
Date: 04/06
Cumulative cases: 9,924

No policy scenario
Date: 04/06
Cumulative cases:11,557,091

Italy

Confirmed cases
Date: 04/06
Cumulative cases: 129,235

No policy scenario
Date: 04/06
Cumulative cases: 2,248,041

France

Confirmed cases
Date: 03/25
Cumulative cases: 24,920

No policy scenario
Date: 03/25
Cumulative cases: 304,093

Iran

Confirmed cases
Date: 03/22
Cumulative cases: 21,683

No policy scenario
Date: 03/22
Cumulative cases: 4,921,398

U.S.A.

Confirmed cases
Date: 04/06
Cumulative cases: 364,726

No policy scenario
Date: 04/06
Cumulative cases: 5,149,354
